Buma ROCKS! presents Heavy Panel at Eurosonic Noorderslag and partnership with LA's Global Rock Summit

The first achievements in preparation of the third edition of Buma ROCKS! are quite impressive. For starters the festival will present for the second time in a row the Heavy Panel during Eurosonic Noorderslag, on Saturday January 17. Besides this, Buma ROCKS! has started an intensive partnership with American compeer Global Rock Summit. The Global Rock Summit returns to Los Angeles on April 24 and 25, while Buma ROCKS! is planned on Friday June 5 at the all new Doornroosje venue in Nijmegen.

Buma ROCKS! partners with LA's Global Rock Summit

We had it coming after last year's mutual interest: in 2015 Buma ROCKS! joins forces with its sister conference for heavy music, the Global Rock Summit in Los Angeles. If you're both aiming to encourage and inspire the international rock music community, work together, right?! Similar to Buma ROCKS! the GRS presents forums featuring some of rock's leading visionaries, who will offer their perspectives on today's rock music business. Artists, managers, labels, publishers, agents, promoters, brands, media, etc. join in to discuss what it takes to make it in heavy rock and then stay on top of your game. The partnership will see event organizers Frank Helmink (initiator of Buma ROCKS! and Managing Director of Buma Cultuur) and Sat Bisla (founder of Global Rock Summit) attending and participating as part of each other's event programming. Additionally, the conferences will feature some of the best new emerging rock talent from around the world through various showcase events.
